PHASE 2 AND BEYOND OPPORTUNITIES

Objective:

Continue to partner and leverage the expertise and reach of current and new Non-Profit Partners in new and relevant ways that bring “One Park for All” – the promise of The Bay - to life.

Examples:

- **Blue-and-Green Oasis:** FREE hands-on and “how-to” immersion and educational experiences for park guests in the area of environmental sustainability, including practical ways to improve one’s personal footprint in everyday life.
- **Open and Accessible to All:** FREE access to high-quality arts & cultural performances and other experiences by the “very best” from across the region and beyond.
- **One Park for All:** Continue to expand Non-Profit Network to introduce the park to untapped, underserved and diverse cohort groups (e.g., African American, Latino, Persons with Disabilities). Test, learn and evolve Multi-Cultural Gathering program that celebrates and educates about the many cultures that make up the greater Sarasota community.
- **A Gathering Place:** Partner to enable festivals, markets and others gatherings that bring people together on “Common Ground” (name of the grand lawns in the current park) and at the “Town Square” (working name of important Phase 2 community space).
